1 - Safety Alert Symbols

WARNING SIGN: indicates a potentially hazardous situation which, if not avoided, could result in death or serious injury. It highlights conditions that are a serious risk for personal safety.

CAUTION SIGN: Indicates a potentially hazardous situation which, if not avoided, may result in a minor or moderate injury, and to alert against unsafe practices.

NOTICE SIGN: Alerts you to pertinent facts and conditions.

2 - General Information

PLEASE READ THIS INSTRUCTIONS MANUAL THOROUGHLY AND CAREFULLY AND UNDERSTAND ITS CONTENTS BEFORE INSTALLING THE LANCASTER WATER TREATMENT FILTER HOUSING.

• The information in this instruction manual is subject to modifications without prior notice and is not binding on the manufacturer LANCASTER WATER TREATMENT.
• Keep the instruction manual for future reference.

Product Identification: A label carrying product identification, serial number, production batch is applied on the package of the product. An additional label describing maximum working pressure and maximum working temperature is applied to the filter housing.

The label must not be removed, tampered, hidden, covered, or changed.

If the label on the product is missing or the operational conditions on the label are not legible, DO NOT INSTALL the filter and contact LANCASTER WATER TREATMENT Authorized Distributors or contact the manufacturer by e-mail at info@lancasterwatergroup.com.

The values of the maximum working temperature and the maximum working pressure shown in the label affixed to the filter housing are intended as maximum working parameters and must not be exceeded under any circumstances.

The filter cartridge intended to operate with this filter housing may not be included in the package and, if not included, must be purchased separately. Carefully choose the filter cartridge fit for the selected filter housing in the literature and pamphlets made available by LANCASTER WATER TREATMENT Authorized Distributors or at www.lancasterwatergroup.com. Use only original LANCASTER WATER TREATMENT Filter Cartridges. The use of cartridges different from the original ones voids the warranty.

3 - Personnel’s Qualification

ONLY QUALIFIED AND LICENSED PERSONNEL MAY PERFORM INSTALLATION, SERVICE AND MAINTENANCE OF THE LANCASTER WATER TREATMENT FILTERS.

4 - Precautions, Warnings

READ ALL INSTRUCTIONS AND PRECAUTIONS BEFORE INSTALLING AND USING YOUR LANCASTER WATER TREATMENT PRODUCT.
5 - Installation

Refer to Fig. A, B and C for installation directions.

- Before installation, check if the plumbing system has been set-up according to the applicable plumbing code.
- Avoid all kinds of tensions by using an LANCASTER WATER TREATMENT wall bracket, accessory available on demand. Should the use of the wall bracket be impossible, the installer (qualified and licensed personnel) shall be responsible for the most appropriate installation avoiding tensions which may affect the filter’s integrity.
- Connect the inlet to the product’s side with the arrow IN and the outlet to the side with the arrow OUT. (Fig. B)
- Connect to pipes using tapered (conical) fittings ONLY in the case of NPT marked housings and/or in the case of housings specified as NPT in the label affixed in the package of the product. Preferably connect to pipes using flexible hoses.
- Connect to pipes using BSP (cylindrical) fittings in the case the housing is not marked NPT or not specified as NPT in the package label. Preferably connect to pipes using flexible hoses.
- Use only sealing tape as a sealant for the connections.
- The installation of a By-pass is recommended (see Fig. A).
- If the housing is provided complete with cartridge, remove the protective plastic wrap from the cartridge before the use.
- Refer to Fig. pag. 6 section 9 below for step-by-step instructions for the insertion of a (new) cartridge.

- The information in this instruction manual is subject to modifications without prior notice and is not binding on the manufacturer ATLAS FILTRI S.R.L.

- The label must not be removed, tampered, hidden, covered, or changed.

- If the label on the product is missing or the operational conditions on the label are not legible, DO NOT INSTALL the filter and contact ATLAS FILTRI Authorized Distributors or www.atlasfiltri.com.

- The values of the maximum working temperature and the maximum working pressure shown in the label affixed to the filter housing are intended as maximum working parameters and must not be exceeded under any circumstance.

- Turn-off the water main before installation.

**WARNING**

Before installation ensure that any electric plugs in the vicinity of the area are disconnected.

**CAUTION**

Do not install near electric appliances.

Do not use with water that is microbiologically unsafe or of unknown quality without adequate disinfection before or after the system. Systems certified for cyst reduction may be used on waters that contain filterable cysts.

Turn-off the water main before installation.

**UNADVISABLE INSTALLATION**
- LONGITUDINAL STRESSES
- RADIAL STRESSES
- USE ONLY SEALING TAPE AS A SEALANT
- DO NOT USE HEMP
- DO NOT USE LIQUID SEALANTS OR GLUES
- DO NOT USE GREEN PASTE

**IDEAL INSTALLATION**
- TYPE OF FITTINGS
- BSP parallel (cylindrical) ISO 228
  Fit to all housings except NPT marked housings
- NPT tapered (conical) ANSI/ASME B1.20.1
  Use only with NPT marked housings

**CAUTION**

**NOTICE SIGN:** Alerts you to pertinent facts and conditions.

**WARNING SIGN:** Indicates a potentially hazardous situation which, if not avoided, could result in death or serious injury.

**CAUTION SIGN:** Indicates a potentially hazardous situation which, if not avoided, may result in a minor or moderate injury, and to alert against unsafe practices.

**PRODUCT IDENTIFICATION:**
- A label carrying product identification, serial number, manufacturer’s identification: see page 1
- A label carrying the most recent production batch is applied on the package of the product. An additional label describing maximum working pressure and maximum working temperature is applied to the filter housing.

**SERVICE AND MAINTENANCE OF THE ATLAS FILTRI FILTERS:**
- The information in this instruction manual is subject to modifications without prior notice and is not binding on the manufacturer ATLAS FILTRI S.R.L.
- The label must not be removed, tampered, hidden, covered, or changed.
- If the label on the product is missing or the operational conditions on the label are not legible, DO NOT INSTALL the filter and contact ATLAS FILTRI Authorized Distributors or www.atlasfiltri.com.

**NOTICE SIGN:** Alerts you to pertinent facts and conditions.

- The information in this instruction manual is subject to modifications without prior notice and is not binding on the manufacturer ATLAS FILTRI S.R.L.
- The label must not be removed, tampered, hidden, covered, or changed.
- If the label on the product is missing or the operational conditions on the label are not legible, DO NOT INSTALL the filter and contact ATLAS FILTRI Authorized Distributors or www.atlasfiltri.com.
6 - Start Up
- Keep the Filter package with label affixed to identify the product.
- Ensure that the sealing is tight and secure.
- After the installation, run the tap and let the water flow for at least 5 minutes before use.

CAUTION

The initial quality of the water will not be optimal unless the tap runs for at least 5 minutes before use.

7 - Use (check the label on the package to identify the filter housing series and model)
- Refer to Figure C for installation layout.
- Three Piece and Big filter housing with plastic threaded connections are certified against NSF/ANSI Standards 42 and 61 for the filtration of drinking water. In case of use for the filtration of drinking water, do not use for filtration of water that is unsafe or of unknown quality. Systems certified for cyst reduction may be used on waters that contain filterable cysts.
- Check for the filter housing model from the label applied on the product package and from the legend (Sticker Legend) printed on the package.
- Respect the working parameters shown in the package data plate and in the label affixed to the filter housing.
- If pressure exceeds the working conditions, protect the product with a pressure reducer.
- Keep transparent (clear) filter housings models protected from light. Use only opaque (blue) housings models for installation under direct light. Filter housings with designations transparent and opaque must be supplied with cold water only.
- Use Reinforced Polypropylene (Big) filter housing models only for water with pH not applicable for drinking water (check for national/local regulations). Reinforced Polypropylene filter housings must be supplied with cold water only. Keep Reinforced Polypropylene filter housings models protected from light.
- Use only HOT filter housing models for hot water filtration (applicable working temperature on product’s label).
- Protect from excessive cold or heat: do not expose to temperature below 39°F (4°C) or above 113°F (45°C) all housings models with the only exception of HOT model which can stand up to 176°F (80°C).
- Protect from back-flows of hot water (except for HOT models within working parameters) with a non-return valve.
- Protect from hammering with an anti-hammering device.
- Should the filter (housing + cartridge) be left not in use for more than 1 week replace cartridge/s with new one/s prior to use.
**CAUTION**

The values of the maximum working temperature and the maximum working pressure shown in the label affixed to the filter housing are intended as maximum working parameters and must not be exceeded. Use of the filter housing under higher pressure conditions could cause ruptures.

**WARNING**

Use Three Piece and Big filter housing models for filtration of drinking water.

**INSTALLATION LAYOUT**

![Installation Diagram]

CV = Check Valve, BV = Ball Valve

**8 - Accessories, spare parts and filter cartridges**

Accessories, spare parts and filter cartridges are available through the LANCASTER WATER TREATMENT wholesalers network. In case of difficulties contact LANCASTER WATER TREATMENT Authorized Distributors or contact the manufacturer by e-mail at info@atlasfiltri.com.

**NOTICE**

Use only original LANCASTER WATER TREATMENT Filter Cartridges. The use of non-original LANCASTER WATER TREATMENT cartridges voids the warranty.
9 - Operations for Filter Cartridge replacement

See figures and follow step-by-step instructions below to replace the filter cartridge.

Refer the literature and pamphlets made available by LANCASTER WATER TREATMENT Authorized Distributors or the label in the Filter Cartridge’s plastic wrap/package, or at www.lancasterwatergroup.com to determine the appropriate LANCASTER WATER TREATMENT cartridge. In choosing the filter cartridge fit for the purpose follow the indication and recommendations available from the cartridge wrap/package. The average life of a filter cartridge varies depending on use, environmental conditions, pressure, etc. In general, changes in taste, odor, or color in the water indicate that the cartridge should be replaced. The use of non-original LANCASTER WATER TREATMENT cartridges voids the warranty.

A. Before opening the filter housing turn off the water main (1) and place a tray under the system to catch any water spilling during the removal of the filter cartridge;
B. Release the pressure from the product by unscrewing the vent-valve of the head (2).
C. Open the housing unscrewing the housing (3), the housing unscrewing the housing (3).
D. Remove the used cartridge (4).
E. Wipe clean the filter housing with cold water and a soft sponge.
F. Open the new cartridge wrap and discard wrap (5).
G. Insert the new cartridge and place it into the housing (6).
H. Tighten the housing bowl to housing’s head using the wrench (7). If the wrench is not included in the package it must be purchased separately. Do not over-tighten.
I. Turn-on the water main (8).
J. Slowly turn on the water supply;
K. Wait for air purge from the vent-valve, then turn and tighten the vent-valve (9).
L. Let the water flow for at least 5 minutes before use (10).

NOTICE
If the filter cartridge is not included in the package it must be purchased separately.
IO - Maintenance

- Replace the filter housing bowl at least every 5 years.
- For maintenance and replacement of filter cartridges follow the instructions on the filter cartridge wrap/package.
- If not in use for more than 1 week remove the filter cartridge, and restart operating per the maintenance/replacement procedure indicated on the filter cartridge wrap/package.

CAUTION
After carrying out maintenance operations, run the tap for at least 5 minutes before using the water.

II - Troubleshooting

<table>
<thead>
<tr>
<th>MALFUNCTION</th>
<th>CAUSE</th>
<th>REMEDY</th>
</tr>
</thead>
<tbody>
<tr>
<td>Leaks between housing and housing head.</td>
<td>a. Housing not sufficiently tightened. b. O-ring affected/old.</td>
<td>a. Tighten further the housing with the wrench. b. If the housing still leaks, change the housing’s O-ring with a new one (use original replacement / spare parts).</td>
</tr>
<tr>
<td>Leaks in inlet / outlet connections.</td>
<td>a. Not enough sealant and/or connection not sufficiently tightened. b. Improper connection type.</td>
<td>a. Remove the previous sealing tape from the fitting and place more sealing tape and or tighten the connection properly. b. Use only filters that match the type of fittings as indicated on the sump head. NPT tapered (conical) fittings fit only to Filters with NPT indication on the sump head. BSP parallel (cylindrical) fittings fit only to Filters without NPT indication in the data plate.</td>
</tr>

I2 - Filtering Housing and Cartridge Disposition
Filters housings and used filter cartridges must be disposed of in accordance with applicable rules and regulations.

I3 - Limited Warranty

Limited Warranty/Products Warranty LANCASTER WATER GROUP warrants to the original purchaser (“purchaser”) that the following products will be free of defects of material and workmanship when sold for the time period listed for each product as follows:

LANCASTER WATER GROUP warrants new LANCASTER WATER TREATMENT products to be free from defects of material and workmanship for a period of 1 year (12 months) of service, if the 1 year of service falls within 24 months from date of manufacture.

Cartridge Type Filter (cartridge excluded) - 1 year from date of installation. If a product fails to function within the stated time period, LANCASTER WATER GROUP will remedy the defect. The purchaser shall immediately notify LANCASTER WATER GROUP of any defect. If the purchaser does not notify LANCASTER WATER GROUP of such defects within the applicable Warranty Period, LANCASTER WATER GROUP shall have no further liability or obligation to purchaser therefore. After notifying LANCASTER WATER GROUP of a defect and receiving permission and an Authorization Number to return the product, the purchaser may return the product to LANCASTER WATER GROUP (freight pre-paid by purchaser) for repair and/or replacement. If LANCASTER WATER GROUP determines that the warranty has not been breached, the product shall be repaired or replaced, at LANCASTER WATER GROUP’s sole option, free of charge. In the event LANCASTER WATER GROUP determines that it is unable to correct a defective component part or product, LANCASTER WATER GROUP may, at its sole option, provide purchaser with a full refund or merchandise credit in the amount of the purchaser’s price of purchase.

The foregoing limited warranty does not cover failure to function caused by damage to the product while in purchaser’s possession, improper installation, unreasonable use or abuse of the product, failure to provide or use of improper maintenance failure to follow written installation and use instructions, neglect, accident, or maintenance of products which have been altered or repaired by any person receiving such product during the warranty period. (Continued on next page)
LANCASTER WATER GROUP will also not be responsible for any damage or losses, direct or indirect, arising from any cause whatsoever, nor for damage to or modification, abrasives, corrosion, and/or electrolysis improper voltage supply, lightning or careless handling; nor for labor, transportation or other damages incurred in the replacement or repair of defective parts. In these cases repair will be subject to reconditioning charges in effect at the time.

THE REMEDIES PROVIDED IN THE PREVIOUSLY EXPRESSED LIMITED WARRANTY ARE THE SOLE AND EXCLUSIVE REMEDIES AVAILABLE TO THE PURCHASER. NO OTHER EXPRESS WARRANTIES ARE MADE. ALL IMPLIED WARRANTIES, INCLUDING BUT NOT LIMITED TO ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR USE, ARE LIMITED IN DURATION AS SET FORTH ABOVE. IN NO EVENT SHALL LANCASTER PUMP BE LIABLE FOR ANY INCIDENTAL OR CONSEQUENTIAL DAMAGES. Some states do not allow limitations on how long an implied warranty lasts or do not allow the exclusion or limitations of incidental or consequential damages, so the above limitations or exclusions may not apply to purchaser. This warranty gives purchaser specific legal rights and purchaser may also have other rights which vary from state to state. The purchaser must maintain proof of purchase of the product to prove date of purchase in the unlikely event of a warranty claim.

NOTICE

We recommend that before installing a water filtration system you have the water tested to determined actual water filtering needs.

NOTICE

If the filter housing is provided without filter cartridge it can be selected in the literature and pamphlets made available by LANCASTER WATER TREATMENT Authorized Distributors or at www.lancasterwatergroup.com

NOTICE

Use only original LANCASTER WATER TREATMENT Filter Cartridges. The use of non-original LANCASTER WATER TREATMENT cartridges voids the warranty.
