Halo™ Ultraviolet Water Purifier

Series Overview

Taking a page from the technology of nature, Lancaster Water Treatment is proud to introduce you to our ultraviolet Halo™ Series. Built to last with the power of our high-intensity ultraviolet bulb and core chamber technology, Halo™ will neutralize harmful bacteria that can create waterborne illnesses within your home. The Halo™ Series has been developed to handle both municipal and well water applications, which will ultimately guarantee you and your family’s peace of mind.

Homeowner Benefits

• Made in the USA
• Halo’s™ rays penetrate bacteria, disinfecting your water while inactivating 99.99% of harmful microorganisms
• Unlike chlorine, UV does not alter the taste or odor of water and will not impart any toxic by-products
• Ultraviolet (UV) technology is more effective than chemicals in destroying certain waterborne contaminants without altering the taste of water
• Designed to the highest standards in the industry
• Treating your water supply with the use of UV disinfection is not only more effective than traditional treatments, but it is also an environmentally responsible way of treating your water
